To Whom It May Concern

I am pleased to write this letter of recommendation for **Ms.Walaa Hani Ibrahim Masoud**, whom I taught two courses and she was excellent in both of them. In addition, her graduation project was distinguished. Throughout two courses, she worked on both the research proposal and the design development of her graduation project in the courses **EARC 5351: An Introduction to Graduation Project and EARC 5402: Graduation Project**. Her project centered on establishing a cultural district that would support cultural organizations in Gaza and help preserve and promote culture and identity after the war.

Ms. Walaa Masoud demonstrated exceptional commitment to her project, approaching it with an innovative mindset and a keen eye for detail. She possesses strong presentation skills, effectively communicating her ideas with clarity and confidence. Ms. Walaa Masoud project showcased not only technical competence but also originality in addressing complex design challenges .

Beyond her technical and analytical abilities, what sets Ms. Walaa Masoud apart is her resilience. As a student from Gaza, she pursued her studies with remarkable dedication despite the immense challenges posed by war. Her unwavering commitment to her education during such difficult times is a testament to her strength, perseverance, and passion for learning. She represents a good example of determination in the face of adversity, and I believe this quality will make her an asset in any academic or professional setting she chooses to pursue.

I highly recommend Ms. Walaa for any opportunity she seeks, and I am confident that she will excel in her future endeavors. Please feel free to contact me if you require any further information.

Sincerely ,

Suheir Ammar

Associate Professor
Islamic University of Gaza
